Fax: 877-882-8061 / 314-543-3880

Dear Interested Party:

Reliant Care Management operates 13 nursing homes in 2 states. As the Director of Finance, it is my responsibility to assure that the facilities are operating at optimum efficiency. This includes monitoring not only the consumption of energy and utilities on site, but also taking any accounting measures available to assure we are being billed correctly.

As a part of our cost reduction efforts the team at U-Tel Auditors was able to assist in securing over \$40,000 in refunds for our group with an additional \$40,000 in future monthly savings over the next 36 months for our electric and gas utility alone.

Their expertise identified oversights on our billing that we would otherwise never have noticed.

Reliant continues to work with U-Tel on further reducing costs on various other utility and service contracts. Certainly I would recommend the services of their firm with the highest confidence.

Best Regards,

Ashwin Dundoo

Director of Finance

Reliant Care Management Group
